

ORCHESTRA™
PATIO DOOR BY ENERGI

**UNCOMPROMISING RELIABILITY
AND DESIGN**

The Orchestra™ patio door's leading-edge is your guarantee of reliability, strength, performance, easy maintenance and contemporary allure

SMOOTH SASH OPERATION

High-performance rollers allow effortless sash handling.

SUPERIOR ENERGY EFFICIENCY

The frame configuration locates the sash and thermos in the insulated part of the wall for a great performance and a surface condensation resistance improvement.

SUPERIOR QUALITY AND DURABILITY

Reinforced frame & sashes, standard aluminum screen and high-performance roller systems.

ENHANCED SECURITY

Various configurations offered for enhanced forced-entry resistance.

MAINTENANCE-FREE

Smooth and glossy interior and exterior surfaces for a refined appearance and easy maintenance.

Maximum Energy Efficiency

The Orchestra™ patio door is ENERGY STAR® qualified.

Performance and durability

(AAMA/WDMA/CSA 101/I.S.2/A440)

Our patio doors meet the most demanding construction standards and are industry leaders for air and water tightness, wind resistance and security.

Handles

Contemporary style interior handle with double mortise lock for enhanced security (available in white, black, bronze, brushed chrome and brushed nickel).

Interior

Exterior

A **Hybrid version** (aluminum exterior & PVC interior) is also offered.

Various **styles** and **grid** patterns.

A choice of colors to suit any decor with a ENERGI paint program consisting of more than **40 standard colors** for interior and exterior, we will also match your color sample.

New construction and remodeling projects easily planned with a selection of configurations and sizes.

Many standard **options** are available to meet requirements: Brickmould, frame and sill extensions, cladding, sidelite, transom, etc.

OPTIONS

Lift and Slide

The lift & Slide handle lets you operate the sash effortlessly, and increases its tightness.

The **"Icon"** stylish design handle is offered with an integrated lock system in five different finishes: white, black, bronze, brushed chrome and brushed nickel.

Enhanced security

The aluminum security bar attached to the frame, the footlock, the exterior key lock, the 4-point multipoint locking system for enhanced forced-entry resistance.

Superior **Quality** and **Durability**

Frame and Sashes

7 ¼" sturdy all vinyl frame, mechanically assembled

3 ½" rigid welded sashes reinforced at stiles for superior stiffness and optimal operation

1" Low-E with Argon double sealed glass unit or 1 ¼" triple sealed glass unit for an excellent energy coefficient

Smooth and glossy interior and exterior surfaces for a refined appearance and easy maintenance

Effortless operation and outstanding tightness

High performance roller system for a fluid operation

Full perimeter double weatherstrip and quadruple at meeting rail for a remarkable performance

Specially designed drainage cavity system to ensure better water drainage

Aluminum screen with easy levelling rollers for a smooth operation

Anodized aluminum sill reduces maintenance and provides long-term durability
